THANU SHREE D

tanushree4233@gmail.com +91 8105744240 github.com/Thanushree-d linkedin.com/in/thanu-shree-d-ab6860263

PROFESSIONAL SUMMARY

Computer Science Engineering graduate specializing in Full Stack Development and Machine Learning, with hands-on experience building scalable applications, intelligent prediction systems, and real-time user-centric platforms. Skilled in modern development technologies, machine learning frameworks, and database management, with a strong focus on developing efficient, reliable, and user-friendly software solutions.

EDUCATIONAL QUALIFICATION

Bachelor of Engineering in Computer Science and Engineering CGPA: 8.6 2022 – 2026
Sri Venkateshwara College of Engineering, Bengaluru

Class XII Percentage: 92% 2020 – 2022
Swami Vivekananda PU College, Mallur

Class X Percentage: 90.72% 2019 – 2020
Pragathi High School, Vijayapura

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript
ML / AI: Scikit-learn, TensorFlow, PyTorch, CNN
Web Development: React.js, Node.js, Flask, REST APIs , HTML5, CSS3
Databases: MySQL
Tools: Git, GitHub, Jupyter Notebook, Google Colab

PROJECTS

Stress and Drought Prediction in Plants GitHub
Tech Stack : Python, TensorFlow, Keras, Scikit-Learn, OpenCV, Flask, SQLite

- Preprocessed plant datasets and trained ML/DL models for stress classification and drought prediction.
- Developed Flask APIs and integrated trained models for real-time predictions.
- Optimized model performance and managed prediction workflows using Python and SQLite.

Mentor Connect GitHub
Tech Stack : React.js, Python, FastAPI, MySQL, REST APIs, HTML, CSS, SQLAlchemy

- Developed responsive React.js interfaces with reusable components and REST API integration.
- Built backend services using Python, FastAPI, SQLAlchemy, and MySQL for authentication and data management.
- Implemented role-based access control, session management, and scalable CRUD operations using RESTful APIs.

INTERNSHIP

MindMatrix Technologies – Android Application Development Intern **Feb 2026 – May 2026**
Developed Santhe Connect, an Android application using Kotlin, Jetpack Compose, Firebase Firestore, and MVVM architecture. Implemented responsive UI, real-time database integration, and filtering features to enhance user experience and application performance.

CERTIFICATIONS & COURSES

Python for Beginners and Full Stack Web Development – Simplilearn
Introduction to AI and Deep Learning – Infosys Springboard
Machine Learning using Python – Great Learning

ACHIEVEMENTS & ACTIVITIES

Participated in InnovonX Hackathon (Dayananda Sagar University) and Build with India Hackathon.
Attended AI Inference Meetup with NVIDIA.

LANGUAGES

English, Kannada
